Tomson Lee, P. Eng.

Mr. Lee graduated from University of Toronto and received his Professional Engineer in 1984. He spent 30 years in the defensive industries for various defense projects, and later on worked for IBM research for business development and technology licensing in Asia Pacific. For the last ten years, he works for City University of Hong Kong for patent and licensing business; and highly involved in the technology transfer activities in the Big Bay areas of southern China.

Robert Alderson

Partner

International Business Development

United States and European Patent Attorney

Doctor of Veterinary Medicine (DVM), Juris Doctor (J.D.) cum laude

Helsinki

Tel: +358 10 227 2000

Email: robert.alderson@berggren.fi

WeChat: wxid_685kmhe6by7112

Website: www.berggren.eu

Robert is one of a very small number of intellectual property attorneys working at a European IP firm who has a law degree from the United States and is qualified to practice before both the United States Patent and Trademark Office and the European Patent Office. Prior to moving to Europe nearly 9 years ago, he worked in New York as an intellectual property attorney for 14 years, including over 10 years in the IP group of an AmLaw 100 law firm.

His responsibility at Berggren primarily involves international business development activities. In such capacity Robert often writes and speaks on a variety of intellectual property-related topics, particularly concerning comparative IP law issues. In his professional capacity, Robert has a great deal of experience in patent prosecution, litigation, licensing, opinion letter-writing, and IP due diligence matters.

Ms Eija Tynkkynen
Commercial Counsellor, China Country Head
Business Finland China

Ms Tynkkynen is an international business professional with strong multicultural leadership and management experience. She has been working over twenty years in Asia in China, Vietnam, Thailand, Malaysia and Singapore. Her wide experience covers both corporate and public sectors. She holds MBA degree from Aalto University, where she specialized into the digital technology management and Bachelor of Business Administration in international business with studies in US.

Business Finland is a Finnish government agency, a global leader in international trade promotion, investment, export, tourism and innovation. Business Finland has more than 600 experts working in over 30 countries. In China, Business Finland has five offices and is the official bridge for promoting investments, trade, innovations and travel between Finland and China.

Mika Klemettinen, PhD

Trade and Innovation Consul 贸易和创新领事

Head of Business Finland Shanghai Office 芬兰国家商务促进局上海办公室负责人

Mika Klemettinen currently works as a Trade and Innovation Consul at the Consulate General of Finland in Shanghai and is the Head of Finland Trade Center in Shanghai. Mika holds a PhD (1999) from the University of Helsinki in AI and telecommunications. In addition to the academic history, he has been working in Nokia in industry-academy collaboration, 4G pre-standardization and global marketing. Before the current position, he was a Digitalisation Director at Business Finland responsible for the digitalisation area (AI, 5G, cyber security, etc.) technologies and strategy. During the recent years, he has also participated in the preparation of the Finnish national digitalisation and AI strategies as well as the governmental information policy.

Abstract:

Why Finland is a globally leading country in innovation? What the greenest, happiest and one of the technologically strongest country has to offer? The talk will open up Finnish innovation system, PPPP collaboration and business driven ecosystems with case examples – highlighting reasons to come and invest in R&D in Finland.

Mika Lehtinen

VP, IP Business Area, Partner, Berggren Brokerage; M.Sc. in Technology

Mika has over 20 years comprehensive IP experience and especially he has focused on IP commercialization. So far he has prepared material and participated in many important patent portfolio licensing or selling projects which have generated significant profit for IP owners (up to hundreds of millions).

In his work Mika is able to benefit his broad contact networks to different kinds of global companies and patent acquiring organizations (e.g. patent funds). Mika started his IP career by working for Nokia on 1996. During his over 15 years career in Nokia he managed many demanding positions relating to different areas of IP e.g. in patent prosecution area, managing significant patent portfolios and commercializing patents.

In 2011 Mika joined Berggren and has commercialized patents in various fields, including ICT, chemistry and machinery. He is also helping clients with IP risk management and IP strategies.
